

EFFORTS FOR SDGS BY MEIHOKU PVT. LTD.

SUSTAINABLE DEVELOPMENT GOALS

17 GOALS TO CHANGE THE WORLD

What is SDGs?

The Sustainable Development Goals (SDGs) succeed the **Millennium Development Goals (MDGs)** formulated in 2001, and was adopted at the United Nations Summit in September 2015 on the 2030 agenda for Sustainable Development. It is an international goal to aim for a sustainable and better world by 2030. It consists of 17 goals and 169 targets, and pledges to “leave no one behind” on the earth. SDGs is a universal thing that not only developing countries but also developed countries themselves are working on.

(From the Ministry of Foreign Affairs website)

Efforts for SDGs by Meihoku Pvt. Ltd.

Meihoku Pvt. Ltd. will continue to aim to be a company that is needed for society because of the region. We will fulfill our responsibilities by actively working on “quality improvement and environmental protection” through our corporate activities, which is our management philosophy. Based on this, we will set a specific theme, support the SDGs effort, contribute to community through companies and activities, work toward the realization of a sustainable society.

SUSTAINABLE DEVELOPMENT GOALS

Good health and well being

Efforts to realize diverse work styles, create a comfortable working environment for employees, and carry out health examinations regardless of age, disability, or other circumstances.

Quality Education

Through human resource development, skill training, and recommendations for acquiring qualifications, we will provide a rewarding workplace and work to create a comfortable working environment.

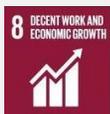

Clean Water and Sanitation

Efforts to save water by using well water to promote visualization of water reduction.

Affordable and Clean Energy

Through human resource development, skill training, and recommendations for acquiring qualifications, we will provide a rewarding workplace and work to create a comfortable working environment.

Decent Work and Economic Growth

Promotion of work style reform, improvement of paid leave acquisition rate, reduction of overtime, order of childcare leave, improvement of re-employed working environment after retirement, and efforts to create a comfortable working environment where all employees can enjoy and play an active role together increase.

Reduced Enequality

An initiative to accept foreign technical intern trainees and support the acquisition of skills.

Sustainable Cities and Infrastructure

We will strive to create a safe and secure town by concluding cleaning activities and disaster prevention agreements, centered on construction companies operating in 2 cities and 1 town, Kitanagoya City, Kiyosu City, and Toyoyama Town.

Responsible Consumption and Production

Properly dispose of waste based on the waste management form (manifest).

Climate Action

We will actively work on the introduction of hybrid vehicles, energy saving, LED certification, CO2 reduction, etc. thinking about contributing to the earth and acting.

Life in Land

Efforts to make it paperless by promoting data exchange by introducing it.

Partnership for the Goal

Donate 1-Million-yen worth of trout to Pokhara City, Nepal to strengthen State support.
